

# 2<sup>nd</sup> Generation BioMatch (2GBM)

## Biomass to Bioenergy

### About 2GBM

The 2nd Generation Biomatch programme is an EU funded initiative to strengthen competitiveness in the bioenergy sectors. The project is supported by some of the largest and most dynamic organisations in the European bioenergy market.

You can take part in up to 4 large matchmaking events in Sweden, Denmark, Spain and Italy, and meet up to 600 businesses, organisations, and research institutes all within the biomass to bioenergy sectors.

You can take part in a large number of follow up training programmes and study trips to get new investments, access to new markets, the latest technologies or ideas.

Your technologies can be marketed to relevant business contacts in 9 different countries.

Our aim is to help you go from contacts to contracts.
